**Global Industrial Showcase, 2018**

**“Global Industrial Showcase 2018”** (GIS-2018) being organised at Bombay Exhibition and Convention Centre, Maharashtra, Mumbai from January 23-25, 2018, is Asia’s Largest Exclusive Industrial Show, spread over an area of more than 45,000 Sqmts. The total number of exhibitors is expected to cross 350 in GIS-2018. GIS-2018 expects a visitor footfall of over 50,000. Large Country pavilions are the highlight of GIS-2018.

GIS 2018 is a comprehensive showcase of products and solutions covering the complete gamut of Manufacturing and Industrial Engineering Space. GIS-2018 will also be a great platform for promoting engineering products /services, as the organizers are expecting a lot of international participants and visitors due to their tie-ups with Bilateral Chambers, Embassies and various Trade Associations etc.

The Exhibition will provide Engineering & Manufacturing Industry, an opportunity to experience the technical capabilities of Indian Industry in the sphere of Engineering & Manufacturing. GIS-2018 provides most comprehensive platforms for discussions and presentation on what is the cutting edge in today’s technology.

Global Industrial Showcase would serve as an ideal platform for exhibitors to showcase their brand/ company and

network with famous industrialists, managing directors and CEOs of leading industries, other industrial manufacturers and dealers, consultants and contractors, plant managers, project design engineers, managers and supervisors, government officials, executives from railways, defence, telecommunication & power sectors, overseas buyers, management professionals, and decision-making associations and industrial institutions.

The event will facilitate spreading information about an industrial product/ service and would serve as a platform for identifying business opportunities and rewarding partnerships for a business owner. Being an exclusive industry-centric convention, it is expected to attract mostly decision-makers from industry with visitor profile comprising of 82% individuals in mid-level or senior management, or business owners.

Global Industry Showcase 2018 is offering a great opportunity for companies, businesses and professionals in the manufacturing and industrial engineering space to exhibit their service or product in front of a whole lot of prospective customers, business owners and companies looking for such products or services. **The exhibition will house exhibitors from sectors such as Industrial Electronics, Instrumentation & Controls, Machinery Tools & Automation, Roofing / Structural, Safety & Fire Fighting Equipment, Steel Manufacturers, Material Handling, Fitting Industry, Solar Energy Equipment Manufacturing and allied industries.**
