Strategic epicentre of Indian manufacturing, Ahmedabad, Gujarat, stands as western India's economic powerhouse after mumbai and India's leading hub for automobiles, non-ferrous metals, and heavy industries. Key highlights include a massive industrial ecosystem; surrounded by a 500 km radius with a population of 100 million people. It hosts world-class manufacturing clusters for aluminum, copper and brass industries. It is also a developing industrial hub of Aluminium automotive components and engineering goods. Also, a global spotlight for being most developing city of western India & the host city for the 2030 Commonwealth Games, an applicant for the 2036 Olympic Games, under-scoring its world-class infrastructure and vision for sustainable growth. The homt-own & native city of Shri Narendra Modi, Prime Minister of India, fuels policy-driven momentum in manufacturing and exports.Its iconic landmarks & home to the world's largest cricket stadium (Narendra Modi Stadium), symbolizes the city's scale and ambition as a megacity. It's magnificent connectivity with its neighbouring cities and states, makes a hub for development, displaying unlimited potential for all industries, globally.

Major industrial cities & Sea Ports of Gujarat

Leveraging on its interconnectivity and opportunities available across the city, Ahmedabad is surrounded with Gandhinagar, Surat, Rajkot (Saurastra), Bhavnagar (Alang Ship Breaking yard), Jamnagar (Petro hub of Reliance industries Ltd.), Vapi-Silvasa-Daman, Kutch & Gandhidham. Ahmedabad also has the privilege of four major sea ports nearby; Kandla Port & Mundra Port, Kutch and Alang & Hajira Port, Near Surat City.

Aluminium Bharat 2026

ALUMEX-INDIA-2026 (2nd Edition), ALUMINIUM COIL FOIL-2026, DOOR WINDOW FACADE-2026

This exhibition, Aluminium Bharat 2026, gathers global leaders, manufacturers, suppliers, and innovators to drive business growth, forge partnerships, and showcase cutting-edge technologies with robotics & automation across the full aluminum ecosystem. India's Booming Aluminum Powerhouse - From Mines to Market: India is a global aluminum giant, with primary aluminium production exceeding 4 million tonnes annually and a downstream aluminium products market poised to surpass $13+ billion. As the world's second-largest producer, our nation dominates.

- Upstream Excellence: World-class bauxite mining, alumina refining, and smelting operations fueling primary production.
- Midstream Strength: Advanced extrusion, rolling, casting, and alloying for profiles, sheets, and components.
- Downstream Innovation: High-value additions in the automotive, aerospace, construction, packaging, and renewable energy sectors—powered by R&D in recycling, sustainability, and specialty alloys.
- Export Momentum: Seamless integration with major ports, BIS compliance expertise, and policy support for global trade. Hosted in Ahmedabad's dynamic industrial hub, this exhibition and summit spotlights India's integrated supply chain and export potential.
- Unmatched Business Opportunities: Network with 500+ exhibitors (Total Area: 50,000+ Sq Mtr with 500+ Booths) spanning from miners and smelters to machinery suppliers, roll products and extrusion products manufacturers, fabricators, and value-added processors from India and worldwide.
- Dive Deep: Experience live demos, technical seminars, and B2B matchmaking focused on the full value chain—upstream sourcing, midstream tech, downstream applications, BIS/export compliance, and supply chain optimization.
- Capitalize: Benefit from India's surging demand and logistics advantages for lucrative deals. Don't miss your gateway to India's aluminum revolution. Secure your booth and sponsorship today!
